

# LEO ROBERTS

A London-based Web Designer that can code front-end. Looking for opportunities to leverage my creative and technological skills.

---

## EDUCATION

**Nottingham Trent University** / Graphic Design / BA (Hons)  
1st Class Honours / Jul 2022

**Hertford Regional College** / Graphic Design / Level 3 Diploma  
Distinction / Jun 2019

---

## EXPERIENCE

**Amazon Flex** / Parcel Delivery Driver  
2022 – Present

I manage my time while performing simultaneous tasks and working to maintain customer relationships.

**BBC Design Sprint** / UX/UI Designer  
2021

Responded to a week-long brief requiring me to design and prototype an app that benefited students. I produced a short-form content news app, targeting students with damaged attention spans from extensive social media use.

**B.A.M London** / Editorial Designer  
2021

I took part in a live brief set by B.A.M London. The task was to create a zine about a subject or interest close to me. I based the zine on folklore, a topic I've always been fascinated with.

**Tyndall's Garden Centre** / Garden Centre Assistant  
2017 – 2019

I worked weekends at Tyndall's, completing retail and horticultural tasks.
